Welcome & Introductions (10 Minutes) – *Casey Nelson, CSP, SHE Manager, PM USA, Chair*

Safety Subcommittee Overview (15 Minutes) – *Casey Nelson, CSP, SHE Manager, PM USA, Chair*

Members will review the draft plan and public messaging for this subcommittee as a principal resource for manufacturers and their contractors/suppliers to share best practices in safety management, risk assessment & mitigation, regulatory information, and safety training.

Safety Training Best Practices – (20 Minutes) - *Dr. Victor Gray, Executive Director, Manufacturing Skills Institute*

Dr. Gray will present on the operational efficiencies of the ISRT Certificate program (including its regulatory updates, multi-media format, cloud-based access, badging and tracking services, Spanish language option and learning management functions) as well as safety outcomes with the over 5,000 certificates issued over the last three years.

Break for Lunch – (15 Minutes)

Safety Management Best Practices – (50 Minutes)

Fatality/Serious Injury (FSI) Potential – *Ozzie Osborne, Safety Engineer, PM USA*

Ozzie will provide members with a general overview of Fatality and Serious Injury (FSI) analysis and prevention. FSI supports a method of analyzing injury data for trends that could indicate underlying risks in the business where there is potential for a fatality or serious injury.

Risk Assessment Tool Sharing – *Natalie Young, Safety Engineer, Altria Client Services*

Natalie will share a Risk Assessment tool used across Altria that focuses on the identification and elimination of significant risks and aligns with the FSI philosophy.

Members will walk away with a basic understanding of FSI and an example of a tool to aid in the identification and elimination of risk in business processes. The elimination of risks with FSI potential, and tools that aid in that process are important for businesses of all sizes. It directly supports worker safety and wellbeing.

Closing & Adjourn – (10 Minutes)
